INDEPENDENT AUDITOR'S REPORT

To the City Council City of Natalia, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Natalia, Texas, as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Natalia, Texas, as of September 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note G to the financial statements, in 2015 the City adopted new accounting guidance, GASB Statement No. 68 Accounting and Financial Reporting for Pensions. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the Employees Retirement System Information on pages 3-12 and 52-54 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management's Discussion and Analysis

As management of the City of Natalia, Texas, we offer readers of the City of Natalia, Texas' financial statements this narrative overview and analysis of the financial activities of the City of Natalia, Texas for the fiscal year ended September 30, 2015.

Financial Highlights

- The assets of the City of Natalia, Texas, exceeded its liabilities at the close of the most recent fiscal year by \$2,195,324 (Net Position). Of this amount, \$172,137 or 8% (unrestricted Net Position) may be used to meet the government's ongoing obligations to citizens and creditors.
- . The government's total Net Position increased by \$227,067. This increase is due mainly to a capital grant of \$217,550 and careful budget management.
- . The City of Natalia, Texas' total debt decreased by \$41,137 (18.13 percent) during the current fiscal year. The key factor was the payment of at tax note of \$40,000.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City of Natalia, Texas' basic financial statements. The City of Natalia, Texas' basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements: The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Natalia, Texas' finances, in a manner similar to a private-sector business.

The *statement of Net Position* presents information on all of the City of Natalia, Texas' assets and liabilities, with the difference between the two reported as *Net Position*. Over time, increases or decreases in Net Position may serve as a useful indicator of whether the financial position of the City of Natalia, Texas is improving or deteriorating.

The *statement of activities presents* information showing how the government's Net Position changed during the most recent fiscal year. All changes in Net Position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*.

Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Natalia, Texas that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City of Natalia, Texas include general government, public safety, highways and streets, sanitation, economic development, and culture and recreation. The business-type activities of the City of Natalia, Texas include a Utility System.

The government-wide financial statements include only the City of Natalia, Texas itself (known as the *primary government*.)

The government-wide financial statements can be found on pages 13-14 for this report.

Fund financial statements: A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Natalia, Texas, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All other funds of the City of Natalia, Texas can be divided into two categories: governmental funds and proprietary funds.

Governmental funds: Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of Natalia, Texas maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the veteran's memorial library fund, the NPD impound fund, and the municipal development district fund.

The City of Natalia, Texas adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on 15-19 of this report.

Proprietary funds: The City of Natalia, Texas maintains one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Natalia, Texas uses enterprise funds to account for its Utility operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide seperate information for the Utility operations, which is considered to be a major fund of the City of Natalia, Texas. The basic proprietary fund financial statements can be found on pages 20-24 of this report.

Notes to the financial statements: The notes provided additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 25-51 of this report.

Other information: In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the City of Natalia, Texas' progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on page 52-54 of this report.

Government-wide Financial Analysis

As noted earlier, Net Position may serve over time as a useful indicator of a government's financial position. In the case of the City of Natalia, Texas, assets exceeded liabilities by \$2,195,324 at the close of the most recent fiscal year.

A significant portion of the City of Natalia, Texas' Net Position (85 percent) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment); less any related debt used to acquire those assets that are still outstanding. The City of Natalia, Texas uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City of Natalia, Texas' investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The remaining balance of *unrestricted Net Position*, \$172,137, may be used to meet the government's ongoing obligations to citizens and creditors.

CITY OF NATALIA, TEXAS NET POSITION

At the end of the current fiscal year, the City of Natalia, Texas is able to report positive balances in all three categories of Net Position for the government as a whole, as well as for its separate governmental activities. The same situation held true for the prior fiscal year. The business-type activities showed a positive balance for the Invested in Capital Assets, Net of Related debt for the current year and the prior year but showed negative balances in unrestricted Net Position for the prior year.

There was an increase of \$83,489 in restricted Net Position reported in connection with the City of Natalia, Texas' governmental and business-type activities. This increase is the result of Municipal Development District sales tax monies of \$70,472.

The government's total Net Position increased by \$227,067. This increase is due mainly to a capital grant of \$275,000 and careful budget management.

Governmental activities: Governmental activities increased the City of Natalia, Texas' Net Position by \$808, thereby accounting for .36 percent of the total increase in the Net Position of the City of Natalia, Texas. This increase is immaterial. However, total income decreased by \$1,801 while expenses decreased by \$50,358 and net transfers out increased by \$66,068.

Financial Analysis of the Government's Funds

As noted earlier, the City of Natalia, Texas uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds: The focus of the City of Natalia, Texas' governmental funds is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City of Natalia, Texas' financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City of Natalia, Texas' governmental funds reported combined ending fund balances of \$169,561, an increase of \$42,393 in comparison with the prior year. Approximately 00% of this total amount (a minus \$3,968) constitutes *unassigned fund balance*, which is available for spending at the government's discretion

The general fund is the chief operating fund of the City of Natalia, Texas. At the end of the current fiscal year, unassigned fund balance of the general fund was a negative \$3,968, while total fund balance reached \$13,579. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned, undesignated fund balance represents 0 percent of total general fund expenditures, while total fund balance represents 3 percent of that same amount.

The fund balance of the City of Natalia, Texas' general fund decreased by \$177,423 during the current fiscal year. This decrease is mainly attributable to an "operating transfer" out of \$58,154, a "transfer out" of \$80,933, and a "residual equity transfer out" of \$71,850.

At the end of the current fiscal year the restricted fund balance of the NPD Impound fund was \$10,438, while total fund balance reached a minus \$10,438. As a measure of the NPD Impound fund's liquidity, it may be useful to compare both restricted fund balance and total fund balance to total fund expenditures. Restricted fund balance represents 236 percent of total NPD Impound fund expenditures, while total fund balance represents 236 percent of that same amount.

The fund balance of the City of Natalia, Texas' NPD Impound fund decreased by \$64,355 during the current fiscal year. Key factor in this decrease is as follows: A" transfer in of \$68,777.

At the end of the current fiscal year the restricted fund balance of the veteran's memorial library fund was \$2,993, while total fund balance reached \$2,993. As a measure of the veteran's memorial library fund's liquidity, it may be useful to compare both restricted fund balance and total fund balance to total fund expenditures. Restricted fund balance represents 63 percent of total veteran's memorial library fund expenditures, while total fund balance represents 63 percent of that same amount.

The fund balance of the City of Natalia, Texas' veteran's memorial library fund increased by \$12,910 during the current fiscal year. Key factor in this increase is as follows: A "transfer in" of \$12,156.

At the end of the current fiscal year the restricted fund balance of the municipal development district fund was \$142,551, while total fund balance reached \$142,551. As a measure of the municipal development district fund's liquidity, it may be useful to compare both restricted fund balance and total fund balance to total fund expenditures. Restricted fund balance represents 8,385.36 percent of total municipal development district fund expenditures, while total fund balance represents 8,385.36 percent of that same amount.

The fund balance of the City of Natalia, Texas' municipal development district fund increased by \$142,551 during the current fiscal year. Key factor in this increase is as follows: An "equity transfer in" of \$71,850 and sales taxes of \$70,472.

Proprietary funds: The City of Natalia, Texas' proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted Net Position of the Utility Fund at the end of the year amounted to \$60,007. The total increase in Net Position for the Utility Fund was \$226,259. Key factors in this overall increase are examined above.

General Fund Budgetary Highlights

During the year there was an increase in appropriations between the original and final amended budget for the general fund of \$4,600. This increase was fairly representative amongst the departments. The overall budgeted expenditures were \$603,787 while the actual expenditures were \$597,055 thus resulting in a budget underage of \$6,732.

Capital Asset and Debt Administration

Capital assets: The City of Natalia, Texas' investment in capital assets for its governmental and business-type activities as of September 30, 2015, amounts to \$2,004,491 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system, improvements, machinery and equipment, park facilities, roads, highways, and bridges. The total increase in the City of Natalia, Texas' investment in capital assets for the current fiscal year was \$107,319 or 6 percent (a 12 percent decrease for governmental activities and a 9 percent increase for business-type activities).

Major capital asset events during the current fiscal year included the following: The City had a Wastewater Improvement Project during the year. This project was completed at year's end and was operational in the 2016 year.

Additional information of the City of Natalia, Texas' capital assets can be found in note IV.C on pages 37-38 of this report.

Long-term debt: At the end of the current fiscal year, the City of Natalia, Texas had the following outstanding bonded debt.

City of Natalia, Texas' Outstanding Bonded Debt

	Beginning Balance	Additions	Reductions	Ending Balance	Due within one year	Due after one year
Governmental activities:						
Tax Notes	\$85,000	\$0	\$40,000	\$45,000	\$45,000	\$0
	85,000	0	40,000	45,000	45,000	0
Grand Total	\$85,000	\$0	\$40,000	\$45,000	\$45,000	\$0

The City of Natalia, Texas' total bonded debt decreased by \$40,000 during the current fiscal year. This was a result of a bond payment of \$40,000.

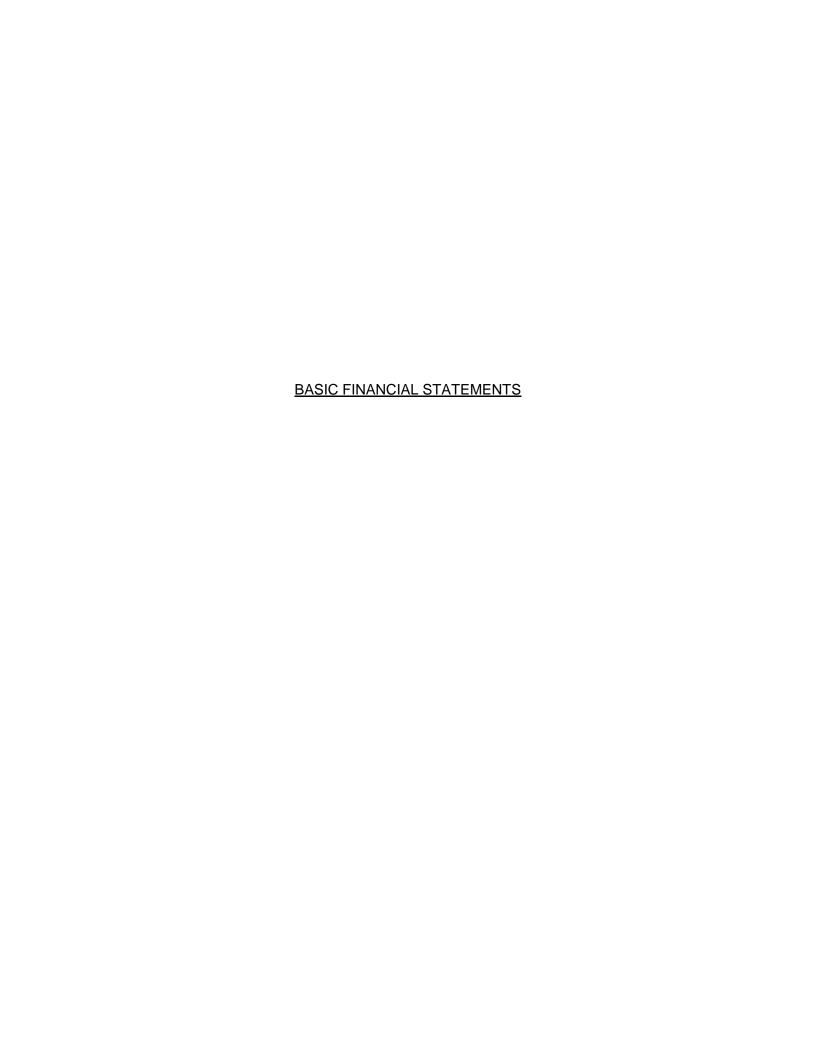

Additional information on the City of Natalia, Texas' long-term debt can be found in note IV.F on pages 39-41 of this report.

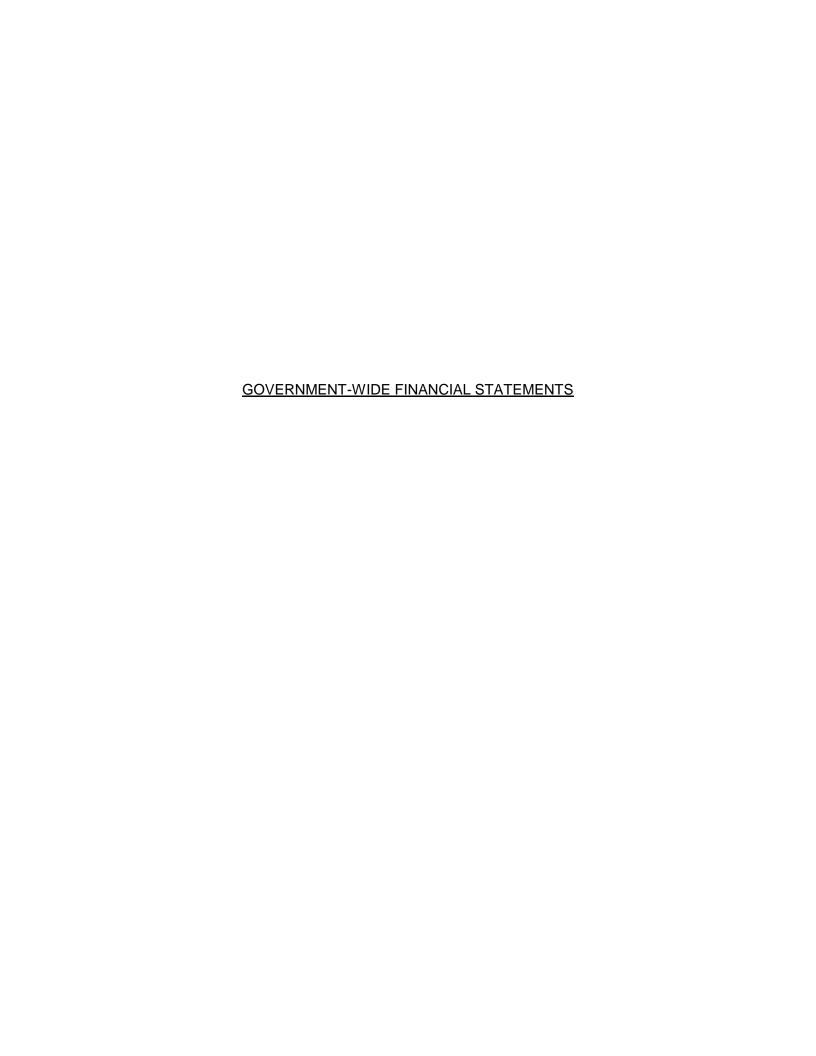

Economic Factors

The influx of business resulting from the Eagle Ford Shale had an impact on the City and will continue to have an impact for the foreseeable future.

Requests for Information

This financial report is designed to provide a general overview of the City of Natalia, Texas' finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Finance Department; P.O. Box 270; Natalia, Texas 78059.

CITY OF NATALIA, TEXAS
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
SEPTEMBER 30, 2015

Total Fund Balances - governmental funds balance sheet	\$169,561
Amounts reported for governmental activities in the statement of Net Position ("SNA") are different because:	
Capital assets used in governmental activities are not reported in the funds.	273,122
Property taxes receivable unavailable to pay for current period	
expenditures are deferred in the funds (net of allowance for uncollectibles).	93,565
Deferred Outflow of Resources-Contribution.	15,333
Deferred Outflow-Investment Experience.	1,092
Deferred Outflow-Actual Experience vs. Assumption.	(3,648)
Other long-term assets are not available to pay for current period	
expenditures and, therefore, are deferred in the funds.	30,494
Long-term liabilities, including bonds payable, are not due and payable in the	
current period and therefore are not reported in the funds.	(107,069)
Net Position of governmental activities - statement of Net Position	\$472,450

CITY OF NATALIA, TEXAS
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
SEPTEMBER 30, 2015

Net Changes in Fund Balances - total governmental funds	\$42,393
Amounts reported for governmental activities in the statement of Net Position ("SNA") are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays	
exceeded depreciation in the current period.	(35,806)
Certain property tax revenues are deferred in the funds. This is the change in these amounts this year. Other long-term assets are not available to pay for current period	7,881
expenditures and, therefore, are deferred in the funds. This is the change in these amounts this year.	(39,801)
Deferred Outflow of Resources-Contribution. This is the change in these amounts this year.	1,981
Deferred Outflow-Investment Experience. This is the change in these amounts this year.	1,092
Deferred Outflow-Actual Experience vs. Assumption. This is the change in these amounts this year.	(3,648)
Increase in loan principal are receipts in the funds but not revenue in the SOA.	(25,000)
Repayment of loan principal is an expenditure in the funds but not an expense in the SOA.	49,563
(Increase) decrease in Compensated Absences Payable from beginning of period to end of period.	(3,214)
(Increase) decrease in Accrued Interest Payable from beginning of period to end of period.	1,110
(Increase) decrease in Net Pension Liability from beginning of period to end of period.	4,257
Change in Net Position of governmental activities - statement of activities	\$808

CITY OF NATALIA, TEXAS NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2015

I. Summary of significant accounting policies

A Reporting entity/ Basis of Accounting/Measurement Focus

The City of Natalia, Texas, was incorporated by an election. The City operates under a General Law type of government and provides the following services: public safety (fire, ambulance, and law enforcement), public transportation (streets), health, culture, recreation, public facilities, legal, election functions, and general administrative services. The accounting policies of the City of Natalia, Texas, (the City) conform to generally accepted accounting principles. The City also applies all relevant Government Accounting Standards Board (GASB) pronouncements. The following is a summary of the more significant policies.

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues, and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

The accounting policies of the City of Natalia, Texas, (the City) conform to generally accepted accounting principles generally accepted in the United States of America. The City also applies all relevant Government Accounting Standards Board (GASB) pronouncements.

B. Government-wide and fund financial statements

The City's Government-Wide Financial Statements include a Statement of Net Position and a Statement of Activities. These statements present summaries of Governmental and Business-Type Activities for the City accompanied by a total column.

These statements are presented on an "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all of the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, including capital assets and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in Net Position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred, regardless of the timing of related cash flows. The types of transactions reported as program revenues for the City are reported in three categories: 1) charges for services, 2) operating grants and contributions, and 3) capital grants and contributions.

Certain eliminations have been made to interfund activities, payables, and receivables. All internal balances in the Statement of Net Position have been eliminated except those representing balances between the governmental activities and the business-type activities, which are presented as internal balances and eliminated in the total primary government column. In the Statement of Activities, internal service fund transactions have been eliminated; however, those transactions between governmental and business-type activities have not been eliminated.

C. Governmental Fund Financial Statements

Governmental fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds and non-major funds aggregated. An accompanying schedule is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements to the Net Position and changes in Net Position presented in the Government-Wide financial statements. The City has presented all major funds that met those qualifications.

All governmental funds are accounted for on a spending or "current financial resources" measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities are included on the Balance Sheets. (The City's deferred outflows of resources and deferred inflows of resources are noncurrent.) The Statement of Revenues, Expenditures and Changes in Fund Balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except that revenues subject to accrual (generally 60 days after year-end) are recognized when due. The primary revenue sources, which have been treated as susceptible to accrual by the City, are property taxes. Expenditures are recorded in the accounting period in which the related fund liability is incurred.

The government reports the following major governmental funds:

The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The NPD Impound fund is used to collect monies from impounding vehicles to be used for law enforcement purposes.

The veteran's memorial library fund is used to collect monies for the operation of the city library.

The municipal development district fund is used to collect monies for Municipal Development.

D. Proprietary fund financial statements

Proprietary fund financial statements include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Fund Net Position, and a Statement of Cash Flows for each major proprietary fund and for the non-major funds aggregated.

Proprietary funds are accounted for using the "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all assets, deferred outflows of resources, liabilities (whether current or noncurrent), and deferred inflows of resources are included on the Statement of Net Position. The Statement of Revenues, Expenses and Changes in Fund Net Position present increases (revenues) and decreases (expenses) in total Net Position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred, regardless of the timing of related cash flows.

Operating revenues in the proprietary funds are those revenues that are generated from the primary operations of the fund. All other revenues are reported as non-operating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as non-operating expenses.

The government reports the following major proprietary funds:

The utility fund accounts for the activities of the government's water and sewer operations.

E. Assets, liabilities, and Net Position or equity

1. Deposits and investments

For purposes of the statement of cash flows, the City considers all highly liquid investments (including restricted assets) with a maturity when purchased of three months or less and all local government investment pools to be cash equivalents.

2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade and property tax receivables are shown net of an allowance for uncollectibles. Current trade accounts receivable allowance is equal to 1 percent of outstanding utility billings at September 30, 2015, trade accounts receivable allowance in excess of 30 days is equal to 5 percent of outstanding utility billings at September 30, 2015, the trade accounts receivable allowance in excess of 60 days is equal to 10 percent of outstanding utility billings at September 30, 2015, the trade accounts receivable allowance in excess of 90 days is equal to 25 percent of outstanding utility billings at September 30, 2015, and the trade accounts receivable allowance in excess of 120 days is equal to 75 percent of outstanding utility billings at September 30, 2015. The property tax receivable allowance is equal to 1 percent of current outstanding property taxes at September 30, 2015, and 10 percent of delinquent outstanding property taxes at September 30, 2015.

Property is appraised and a lien on such property becomes enforceable as of January 1, subject to certain procedures for rendition, appraisal, appraisal review and judicial review. Traditionally, property taxes are levied October 1, of the year in which assessed or as soon thereafter as practicable. Taxes are due and payable when levied since that is when the City bills the taxpayers. The City begins to collect the taxes as soon as the taxpayers are billed.

3. Inventories and prepaid items

Inventories are considered immaterial and, therefore, there were no inventory items at September 30, 2015.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. There were prepaid items at September 30, 2015.

4. Restricted assets

Certain assets are classified as restricted assets because their use is restricted by applicable contract covenants.

The restricted assets consist of the following cash items:

	Governmental	Business-type	
_	Activities	Activities	Total
Restricted for:			
Debt Service	3,000		\$3,000
Municipal Court Reserve	11,157		11,157
Municipal Development	142,651		142,651
Centennial	3,290		3,290
Library	3,533		3,533
Meters		33,089	33,089
Total	\$163,631	\$33,089	\$196,720

5. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. The City had a Wastewater Improvement Project during the year. This project was completed at year's end and was operational in the 2016 year.

Property, plant, and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

Asset	Years
Buildings	50
Building improvements	20
Public domain infrastructure	50
System infrastructure	30
Vehicles	5
Office equipment	5
Computer equipment	5

6. Compensated absences

It is the government's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the government does not have a policy to pay any amounts when employees separate from service with the government. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds.

7. Long-term obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of Net Position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Comparative data/reclassifications

Comparative total data for the prior year have been presented only for individual enterprise funds in the fund financial statements in order to provide an understanding of the changes in the financial position and operations of these funds. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

9. Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The government only has one item that qualifies for reporting in this category. It is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

10. Net position flow assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

11. Fund Balances – Governmental Funds

As of September 30, 2015, fund balances of the governmental funds are classified as follows:

Restricted — amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed — amounts that can be used only for specific purposes determined by a formal action of City Council. City Council is the highest level of decision-making authority for the City. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by City Council.

Unassigned — all other spendable amounts.

As of September 30, 2015, fund balances are composed of the following:

Fund Balances:	
Restricted	
Debt Service	\$3,000
Municipal Court Reserve	11,157
Municipal Development	142,651
Public Safety	10,438
Committed	
Centennial	3,290
Library	2,993
Unassigned	(3,968)
Total Fund Balance	\$169,561

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless City Council or the finance committee has provided otherwise in its commitment or assignment actions. In fiscal year 2011, the City Council adopted a minimum fund balance policy for the General Fund. The policy requires the unassigned fund balance at fiscal year end to be at least equal to 15 to 25 percent of the subsequent year's budgeted General Fund expenditures.

- II. Reconciliation of government-wide and fund financial statements
 - A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of Net Position

The governmental fund balance sheet includes a reconciliation between fund balance - total governmental funds and Net Position - governmental activities as reported in the government-wide statement of Net Position. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of this \$107,069 difference are as follows:

Compensated Absences	\$9,879
Interest Payable	1,250
Notes Payable	25,000
Tax Notes	45,000
Net Pension Liability	15,892
Capital Lease	10,048
	\$107,069

The governmental fund balance sheet includes reconciliation between fund balance - total governmental funds and Net Position - governmental activities as reported in the government-wide statement of Net Position. One element of that reconciliation explains that "Property taxes receivable unavailable to pay for current period expenditures are deferred in the funds (net of allowance for uncollectibles.") The details of this \$93,565 difference are as follows:

Property Taxes Receivable	\$101,772
Allowance for Doubtful Accounts	(8,207)
Net	\$93,565

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in Net Position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$273,122 difference are as follows:

Capital assets not being depreciated	\$13,400
Capital assets being depreciated	802,848
Depreciation expense	(543,126)
Net adjustment to increase net changes	
in fund balances - total governmental funds to	
arrive at changes in Net Position of	
governmental activities	\$273,122

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of Net Position (continued)

The governmental fund balance sheet includes reconciliation between fund balance - total governmental funds and Net Position - governmental activities as reported in the government-wide statement of Net Position. One element of that reconciliation explains that "Municipal fines and fees receivable unavailable to pay for current period expenditures are deferred in the funds (net of allowance for uncollectibles.") The details of this \$30,494 difference are as follows:

Fines and Fees Receivable	\$236,932
Allowance for Doubtful Accounts	(206,438)
Net	\$30,494

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in Net Position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$35,806 difference are as follows:

Capital Outlay - Additions - Not Being Depreciated	\$0
Capital Outlay - Additions - Being Depreciated	0
Capital Outlay - Deletions	0
Depreciation Expense	(35,806)
Net Adjustment to Increase Net Changes in Fund Balances - Total Governmental Funds to Arrive at Changes in Net Position of Governmental Activities	(\$35,806)

III. Stewardship, compliance, and accountability

A. Budgetary information

The City Manager has been authorized by the council to prepare the budget. The budget is adopted on budgetary basis in conformity with generally accepted accounting principles. After the budget is prepared, it is reviewed by the City Council. The budget is adjusted by the City Council if desired. Then a final budget is prepared by the City Manager. A public hearing is held on the budget by the City Council. Department heads may appear. Before determining the final budget, the City Council may increase or decrease the amounts requested by the various departments or citizens. Amounts finally budgeted may not exceed the estimate of revenues and available cash. Appropriations lapse at year end.

When the budget is adopted by the City Council, the City Manager is responsible for monitoring the expenditures of the various departments of the City to prevent expenditures from exceeding budgeted appropriations and for keeping the members of the City Council advised of the conditions of the various funds and accounts. The level of control is the fund. Expenditures can exceed appropriations as long as they do not exceed available revenues and cash balances. The legal level of control (the level on which the City Council must approve over expenditures) is on an object class basis.

The appropriated budget is prepared by fund, function, and department. The government's department heads may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the council. The legal level of budgetary control (IE. the level at which expenditures may not legally exceed appropriations) is the department level.

B. Excess of expenditures over appropriations

For the year ended September 30, 2015, excess of expenditures over appropriations did not occur in the general fund.

C. Deficit fund equity

The City did not have a deficit fund balance as of September 30, 2015.

IV. Detailed notes on all funds

A. Deposits and investments

Legal and Contractual Provisions Governing Deposits and Investments

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the City to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the City to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Funds, (8) Investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the City to have independent auditors perform test procedures related to investment practices as provided by the Act. The City is in compliance with the requirements of the Act and with local policies.

Policies Governing Deposits and Investments

The City has a depository contract with its depositary bank and has adopted an investment policy. That City does address the following risks:

Custodial Credit Risk - Deposits: In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The City is not exposed to custodial credit risk because during the year the City was fully covered by either depository insurance and/or collateral held by the government's agent in the government's name. The total amount of cash in the bank at September 30, 2015 is \$324,188 while the total pledged securities are \$419,877 and the FDIC insurance coverage is \$280,278. The book balance was \$325,222. As of September 30, 2015, the city had no investments.

B. Receivables

Receivables as of year end for the government's individual major funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	General	Utility	Total
<u>Receivables</u>			
Taxes	\$101,772		\$101,772
Charges for Services		57,113	57,113
Intergovernmental		38,411	38,411
Fines	236,932		236,932
Other		6,834	6,834
Gross receivables	338,704	102,358	441,062
Less: Allowance for			
uncollectibles	214,645	2,958	217,603
Net total receivables	\$124,059	\$99,400	\$223,459

The government's funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue and unearned revenue reported in the governmental funds were as follows:

	Unearned <u>Revenue</u>
Delinquent Property Taxes Receivable (General Fund)-Net	\$ 93,565
Total Deferred/Unearned Revenue for Governmental Funds	<u>\$ 93,565</u>

C. Capital assets

Capital asset activity for the year ended September 30, 2015 was as follows:

	Beginning			Ending
Governmental activities:	Balances	Increases	Decreases	Balances
Capital assets not being depreciated:				
Land	\$13,400	\$0	\$0	\$13,400
Total capital assets not being depreciated	13,400	0	0	13,400

E. Leases

The City had no operating leases at September 30, 2015.

F. Long-term debt

Tax Notes

The government issues tax notes to provide funds for the acquisition and construction of major capital facilities. Tax Notes have been issued for governmental activities. The original amount of the tax notes issued in the 2008-2009 year was \$200,000.

Tax notes are direct obligations and pledge the full faith and credit of the government. Tax notes outstanding are as follows:

<u>Purpose</u>	<u>Rates</u>	<u>Amount</u>
Governmental activities	6.0	\$45,000

The general fund is used to service the tax notes.

Annual debt service requirements to maturity for the Certificates of Obligation bonds and Revenue bonds are as follows:

Year Ending	Governmental activities:				
September 30,	Principal	Interest			
2016	\$45,000	\$2,700			
TOTALS	\$45,000	\$2,700			

Notes Payable

Notes Payable to Security State Bank, Issued September 9, 2015; Maturity Date December 7, 2015; Interest Rate: 4.5%, Maturity Amount \$25,000, Amount Outstanding: \$25,000.

The Notes Payable are unsecured.

The annual requirements for the above general long-term debt outstanding at September 30, 2015 are as follows:

Year Ending	Governmental Activities				
September 30,	Principal	Interest			
2016	\$25,000	\$275			
TOTALS	\$25,000	\$275			

Capital Leases

The Capital Leases consists of one COPSYNC computer system for the police department Governmental Fund Capital Assets at \$37,443. The debt is serviced by the General Fund. The accumulated depreciation of the above equipment is \$7,489. The Capital Leases also consists of a truck and backhoe for the Utility Department at \$80,000. The debt is serviced by the Utility Fund. The accumulated depreciation of the above equipment is \$32,000. The following for the above debt is a schedule of the future minimum lease payments and the present value of net minimum lease payments at September 30, 2015.

The future minimum lease obligations and the net present value of these minimum lease payments as of September 30, 2015, were as follows:

	Governmental	Business-type
	Activities	Activities
YEAR	Amount	Amount
2016	\$10,557	\$13,247
2017		13,247
2018		13,247
2019		13,247
2020		13,246
2021		13,246
Total Minimum Lease Payments	10,557	79,480
Less: Amount Representing Interest	509	10,978
Present Value of Net Minimum Lease Payments	\$10,048	\$68,502

Changes in long-term liabilities

	Beginning	٨ ما ما : ١: ٥ ٥	Daduatiana	Ending	Due within	Due after
	<u>Balance</u>	<u>Additions</u>	Reductions	<u>Balance</u>	one year	one year
Governmental activities:						
Notes Payable	0	25,000		25,000	25,000	0
Capital Lease	19,611		9,563	10,048	10,048	0
Net Pension Liability	20,149		4,257	15,892	0	15,892
Tax Notes	85,000		40,000	45,000	45,000	0
Compensated Absences	6,665	9,879	6,665	9,879	9,879	0
	131,425	34,879	60,485	105,819	89,927	15,892
Business-type activities:						
Compensated Absences	\$4,355	2,682	\$4,355	\$2,682	2,682	\$0
Net Pension Liability	11,172		2,360	8,812	0	8,812
Capital Lease	80,000		11,498	68,502	10,219	58,283
	95,527	2,682	18,213	79,996	12,901	67,095
Grand Total	\$226,952	\$37,561	\$78,698	\$185,815	\$102,828	\$82,987

The general fund and the utility fund are used to service the compensated absences. The estimated amount due in the 2016 year is \$12,561.

The government-wide statement of activities includes \$102,828 as "noncurrent liabilities, due within one year".

The total amount of interest expensed in 2014-2015 is \$4,983. There was no interest capitalized in capital assets.

V. Other information

A. Risk management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Claim liabilities are estimated considering the effects of inflation, recent claim settlement trends (including frequency and amounts of payouts) and other economic and social factors (including the effects of specific, incremental claim adjustment expense, salvage and subrogation).

Changes in accrued liabilities for these claims follow:

	Year ended	Year ended
	09/30/14	09/30/15
Unpaid claims, beginning of fiscal year Incurred claims (including IBNRs)	\$ -0-	\$ -0-
Claim payments Unpaid claims, end of fiscal year	\$ -0-	<u>-0-</u> \$ -0-

General Liability Insurance

The City is insured for general, police officers and automobile liability. Expenditures for self-insured liabilities are accounted for in the General Fund, which will pay any liabilities incurred.

The City has joined together with other governments in the Texas Municipal League Intergovernmental Risk Pool (TML). The City pays an annual premium to TML for auto vehicle insurance coverage. The agreement with TML provides that TML will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of \$500,000 to \$1,000,000 for each insurance event. The City anticipates no contingent losses.

TML has published its own financial report that can be obtained from the Texas Municipal League Intergovernmental Risk Pool, Austin, Texas.

The City carries commercial fidelity bonds for elected officials and for management.

Property and Casualty Insurance

Property, casualty, mobile equipment, boiler and machinery insurance is provided by TML.

Workers' Compensation Insurance

The City insures against workers' compensation claims through TML.

Group Health and Life Insurance

The City maintains a group health insurance plan for active employees and their eligible dependents. Costs are recorded in the fund from which the employees' compensation is paid.

Unemployment Compensation Insurance

The City self-insures for unemployment compensation claims through an agreement with the Texas Workforce Commission (TWC). Under the agreement, TWC administers all claims and is reimbursed by the City for claims incurred plus administrative charges.

B. Related party transaction

There were no related party transactions during the year.

C. Contingent liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the government expects such amounts, if any, to be immaterial.

W Morgan v City of Natalia, Ruby Vera, and Beth Leonesio: The former Police Interdiction Officer and Chief of Police filed suit against the City, former Mayor, and former City Administrator for nonpayment of accumulated compensatory time, overtime and retaliation. The City is seeking an out of court settlement. An unfavorable outcome may occur and potential loss could be as high as \$80,000.

D. Other Post Employment Benefits

The City had no Other Post Employment Benefits at September 30, 2015.

E. Subsequent events

On November 16, 2015 the City approved Option 1 relating to the sale of obligations designated as City of Natalia, Texas Combination Tax and Limited Pledge Revenue Certificates of Obligation, Series 2015 as submitted by Community National Bank which provided for an average annual payment of \$29,728.00 at a 3.30% interest rate for a 15-year term, having an estimated interest cost of \$102,189.00.

On December 14, 2015 the City Administrator notified Council that the 2015-Series bond of \$350,000.00 is set for closing on December 15, 2015, \$10,000.00 of which will be deposited to Norton Rose Fulbright Law Firm, and \$10,000.00 will be deposited to Frost Bank Financial Advisory, and the remaining \$330,000.00 will be deposited into the City's account and held until next year for the purchase of water to avoid paying additional EAA permitting fees.

F. Prior Period Adjustments

The City has determined that certain transactions were recorded incorrectly in a prior year.

The City had a prior period adjustment where by both governmental and business-type activities and Net Pension Liability were decreased by \$6,797 and \$3,769, respectively. The restatement was a result of the City implementing GASB 68. These restatements had a corresponding effect on the beginning net assets.

	Net Assets, as Previously Reported	GASB 68 RESTATEMENT	Net Assets As Restated
Governmental Activites:			_
Net Assets	\$478,439	(\$6,797)	\$471,642

	Net Assets, as Previously	GASB 68 RESTATEMENT	Net Assets As Restated
Business-Type Activites:	Reported	RESTATEMENT	AS Nesialeu
Net Assets	\$1,500,384	(\$3,769)	\$1,496,615
	Ψ1,000,001	(ψο, ι ου)	Ţ:,:00,0:0

G. Defined Benefit Pension Plans

A. Plan Description

The City of Natalia participates as one of 860 plans in the nontraditional, joint, contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at www.tmrs.com. All eligible employees of the city are required to participate in TMRS.

B. Benefits Provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the city, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the city-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

Valuation Date:

Notes Actuarially determined contribution rates are calculated as of December 31

and become effective in January, 13 months later.

- Inactive employees or beneficiaries currently receiving benefits	1	2
- Inactive employees entitled to but not yet receiving benefits	13	14
- Active employees	9	12
- Total	23	28

C. Contributions

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the city matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the city. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City of Natalia were required to contribute 5.00% of their annual gross earnings during the fiscal year. The contribution rates for the City of Natalia were 2.19% and 3.02% in calendar years 2014 and 2015, respectively. The city's contributions to TMRS for the year ended September 30, 2015, were \$11,011, and were equal to the required contributions.

D. Net Pension Liability

The city's Net Pension Liability (NPL) was measured as of December 31, 2014, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

Actuarial assumptions:

The Total Pension Liability in the December 31, 2014 actuarial valuation was determined using the following actuarial assumptions:

Inflation 3.0% per year

Overall payroll growth 3.0% per year

Investment Rate of 7.0%, net of pension plan investment expense, including inflation

Return

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Table, with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Disabled Retiree Mortality Table is used, with slight adjustments.

Actuarial assumptions used in the December 31, 2014, valuation were based on the results of actuarial experience studies. The experience study in TMRS was for the period January 1, 2006 through December 31, 2009, first used in the December 31, 2010 valuation. Healthy post-retirement mortality rates and annuity purchase rates were updated based on a Mortality Experience Investigation Study covering 2009 through 2011, and dated December 31, 2013. These assumptions were first used in the December 31, 2013 valuation, along with a change to the Entry Age Normal (EAN) actuarial cost method. Assumptions are reviewed annually. No additional changes were made for the 2014 valuation.

The long-term expected rate of return on pension plan investments is 7.0%. The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the TMRS Board of Trustees. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (Arithmetic)
Domestic Equity	17.5%	4.80%
International Equity	17.5%	6.05%
Core Fixed Income	30.0%	1.50%
Non-Core Fixed Income	10.0%	3.50%
Real Return	5.0%	1.75%
Real Estate	10.0%	5.25%
Absolute Return	5.0%	4.25%
Private Equity	5.0%	8.50%
Total	100.0%	

Discount Rate

The discount rate used to measure the Total Pension Liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

Sensitivity of the net pension liability to changes in the discount rate

The following presents the net pension liability of the City, calculated using the discount rate of 7.0%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.0%) or 1-percentage-point higher (8.0%) than the current rate:

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

1% Decrease	Current Single Rate	1% Increase
6.00%	Assumption 7.00%	8.00%
\$53,424	\$24,704	\$1,160

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TMRS financial report. That report may be obtained on the Internet at www.tmrs.com.

E. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2015, the City recognized pension expense of \$94,211.

SCHEDULE OF PENSION EXPENSE

1.	Total Service Cost	\$ 23,246
2.	Interest on the Total Pension Liability	14,327
3.	Current Period Benefit Changes	0
4.	Employee Contributions (Reduction of Expense)	(19,080)
5.	Projected Earnings on Plan Investments (Reduction of Expense)	(1 1,634)
6.	Administrative Expense	99
7.	Other Changes in Fiduciary Net Position	8
8.	Recognition of Current Year Outflow (Inflow) of Resources-Liabilities	(2,516)
9.	Recognition of Current Year Outflow (Inflow) of Resources-Assets	424
10.	Amortization of Prior Year Outflows (Inflows) of Resources-Liabilities	0
11.	Amortization of Prior Year Outflows (inflows) of Resources-Assets	 0_
12.	Total Pension Expense	\$ 4,874

At September 30, 2015, the city reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

SCHEDULE OF OUTFLOWS AND INFLOWS - CURRENT AND FUTURE EXPENSE

amo11ization or Outflow		•		Period (or amo11ization		nflow) Recognized Deferred low of in current (Inflow)/Outfloo		Recognized		Deferred (Inflow)/Outflow in future expense	
Due to Liabilities:											
Difference in expected and actual experience [actuarial (gains) or losses]	3.2538	\$	(8,187)	\$	(2,516)	\$	(5,671)				
Difference in assumption changes [actuarial (gains) or losses]	3.2538	\$	0	\$	0	\$	0				
				\$	(2,516)	\$	(5,671)				
Due to Assets:											
Difference in projected and actual earnings on pension plan investments	5.0000	\$	2,122	\$	424	\$	1,698				
[actuarial (gains) or losses]						_					
				\$	424	\$	1,698				
Total:						\$	(3,973)				

(\$3,973) reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending September 30, 2016.

Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Deferred Outflows and Deferred Inflows of Resources, by year, to be recognized in future pension expense as follows:

	Net deferred	
	outflows	
	(inflows)	
	of	
	 resources	
2015	\$ -2,092	2
2016	-2,092	2
2017	-215	į
2018	426	,
2019	C)
Thereafter	 C)
Total	\$ -3 973	3
